## PROFILE

An enthusiastic creative developer with strong web development skills, including HTML, CSS, JavaScript, React, and PHP. My education has reinforced my determination to create engaging digital experiences, and I am seeking opportunities to apply my knowledge within a dynamic and innovative team.

## EMPLOYMENT HISTORY

### Web developer at Dinosource Agency, Mechelen

September 2022 — June 2023

- Joined Dinosource, the in-house agency, during my third year in the Digital Experience Design program.
- Contributed to the creation of our agency's unique brand identity, aligning it with our core values.
- Gained hands-on experience working on diverse client projects.
- Took on multifaceted roles within the agency, including developer, occasional social media support, and project management.
- Developed crucial soft skills and expanded my knowledge of agency operations, guided by our dedicated teachers.

### Headteacher programming at Codefever, Antwerpen

July 2019 — Present

- Excelled as a programming teacher, skillfully simplifying intricate concepts for children while ensuring an engaging learning experience.
- Leveraged a strong programming background and meticulous preparation to effectively communicate complex ideas, prioritizing accessibility and enjoyment in learning.
- Cultivated patience as a valuable attribute in teaching, especially evident when instructing students from Scratch to advanced languages such as HTML, CSS, JavaScript, and Python.

### Intern Web Developer at Flux, Antwerp

February 2023 — May 2023

- Completed an intensive course under the guidance of Bruno Simon, focusing on working with 3D technology, with an emphasis on React and React Three Fiber.
- Worked independently on an internship project, applying advanced web technologies, including React and React Three Fiber.
- Successfully presented my completed internship project to the team.
- Developed a WordPress landing page as part of my internship.
- Undertook various flexible tasks within the team, contributing to several small assignments and projects.
- During my internship at Flux, I honed my technical skills, problem-solving abilities, and teamwork.

## EDUCATION

### Digital Experience Design, Thomas More University, Mechelen

2019 — 2023

I earned a Bachelor's degree in Digital Experience Design, gaining expertise in design, development, and business communication for the digital realm.

### High School Diploma, Computer Science, Boom

2017 — 2019
